- **GEP, a leading global provider of procurement and supply chain solutions, tapped to deliver its cloud-native SMART by GEP<sup>®</sup> sourcing and procurement platform by a leading provider of facilities and building maintenance solutions nationwide**
- **SMART by GEP, native to touch and mobile technologies, provides industry leader complete, end-to-end S2P functionality in a single unified platform, including robust spend analysis, sourcing, contract management, supplier management and procure-to-pay (P2P) features**

**Clark, New Jersey – April 13, 2016** – GEP, a leading global provider of procurement software and procurement services, today announced that its innovative sourcing and procurement platform, SMART by GEP<sup>®</sup>, has been selected by a leading provider of building maintenance and facility services across North America.

Enterprise sourcing and procurement teams at the company will use SMART by GEP to streamline and automate their entire source-to-pay (S2P) workflow. The SMART by GEP platform delivers comprehensive functionality – spend analysis, sourcing, supplier and contract management, procure-to-pay (P2P) – on a single, unified platform native to cloud, mobile and touch technologies.

Offered as Software-as-a-Service (SaaS), [SMART by GEP sourcing and procurement software](#) leverages cloud economics to deliver a solution that easily handles the heaviest processing requirements of GEP's Fortune 500 and Global 2000 clients, while eliminating burdensome infrastructure and support costs.

Sourcing and procurement software from GEP is easy to set up, deploy and use, with no extensive training required. All GEP products are platform-agnostic (they work with SAP, Oracle or any other major ERP or F&A system). And with superb support and service, GEP is an industry leader in customer satisfaction.

SMART by GEP provides complete source-to-pay functionality in one unified cloud-native platform, inclusive of spend analysis, sourcing, contract management, supplier management, procure-to-pay, savings project management and savings tracking, invoicing and other related functionalities. The award-winning, SaaS-based S2P platform is native to touch and mobile devices, enabling users to work anywhere, any time on any device.
