

BROOKS BROTHERS CHOOSES SMART BY GEP PROCUREMENT SOFTWARE

- **Premier clothing retailer selects GEP's cloud-native procurement software platform**

Clark, NJ – December 5, 2016 – GEP, a leading provider of procurement software and procurement services to Fortune 500 and Global 2000 enterprises worldwide, announced today that America's oldest men's clothier and leading premier outfitter of today, Brooks Brothers has selected SMART by GEP® procurement software, the industry's leading cloud-native sourcing, procurement and spend management software platform.

Brooks Brothers is the latest in a line of major retailers to work with GEP and adopt the SMART by GEP platform.

The company, headquartered in New York City, selected SMART by GEP on the strength of its comprehensive spend analysis, spend visibility and strategic sourcing functions.

Raj Nath, Vice President of Strategic Procurement said "As we continue our procurement journey at Brooks Brothers, we are excited to start our relationship with GEP to enhance our spend analytics capabilities and accelerate our savings initiatives."

[SMART by GEP's unified source-to-pay software platform](#), is a complete procurement platform which is native to cloud, touch and mobile technologies. Offered as a Cloud-Native solution, SMART by GEP leverages cloud economics to deliver a solution that easily handles the heaviest processing requirements of GEP's Fortune 500 and Global 2000 clients, while eliminating burdensome infrastructure and support costs.

SMART by GEP is easy to set up, deploy and use, with no extensive training required. All GEP products are platform-agnostic (they work with SAP, Oracle or any other major ERP or F&A system). And with superb support and service, GEP is an industry leader in customer satisfaction.

SMART by GEP provides complete source-to-pay functionality in one user-friendly, cloud-native platform, inclusive of spend analysis, sourcing, contract management, supplier management, procure-to-pay, savings project management and savings tracking, invoicing and other related functionalities. The award-winning, SaaS-based S2P platform is native to touch and mobile technologies, enabling users to work anywhere, any time on any device.
