

## DENTSPLY SIRONA SELECTS SMART BY GEP PROCUREMENT SOFTWARE PLATFORM

- **Dental technologies giant, Dentsply Sirona chooses GEP's cloud-native procurement software for comprehensive capabilities to automate and streamline global procurement operations**
- **SaaS-based SMART by GEP is native to cloud, touch and mobile technologies**

**Clark, NJ – June 14, 2016** – GEP, a leading provider of procurement software and procurement services to Fortune 500, Global 2000 and other enterprises worldwide, announced today that Dentsply Sirona has selected [SMART by GEP procurement software](#), the industry's leading cloud-native sourcing and procurement platform, to deliver comprehensive source-to-contract capabilities to help streamline and automate the operations of its global enterprise procurement teams.

The company, the world's largest manufacturer of professional dental products and technologies, is deploying the SMART by GEP platform's world-leading functionalities for spend analysis, savings management, strategic sourcing, contract management and supplier management. SMART by GEP is a complete, unified source-to-pay software platform, native to cloud, touch and mobile technologies. Offered as Software-as-a-Service (SaaS), [SMART by GEP source-to-pay software platform](#) leverages cloud economics to deliver a solution that easily handles the heaviest processing requirements of GEP's Fortune 500 and Global 2000 clients, while eliminating burdensome infrastructure and support costs.

SMART by GEP is easy to set up, deploy and use, with no extensive training required. All GEP products are platform-agnostic (they work with SAP, Oracle or any other major ERP or F&A system). And with superb support and service, GEP is an industry leader in customer satisfaction.

SMART by GEP provides complete source-to-pay functionality in one user-friendly, cloud-native platform, inclusive of spend analysis, sourcing, contract management, supplier management, procure-to-pay, savings project management and savings tracking, invoicing and other related functionalities. The award-winning, SaaS-based S2P platform is native to touch and mobile technologies, enabling users to work anywhere, any time on any device.
