

GLOBAL MEDICAL TECHNOLOGY LEADER SELECTS SMART BY GEP PROCUREMENT SOFTWARE

- **US-based medical technology company chooses GEP's cloud-native procurement software platform for savings project management and tracking capabilities**

Clark, NJ – September 9, 2016 – GEP, a leading provider of procurement software and procurement services to Fortune 500 and Global 2000 enterprises worldwide, announced today that a leading global medical technology company has selected SMART by GEP[®] procurement software, the industry's leading cloud-native sourcing, procurement and spend management software platform.

The company, with operations in more than 50 nations worldwide, said that SMART by GEP was selected because of its particularly strong capabilities in savings project management, savings tracking and spend management.

[SMART by GEP's unified source-to-pay software platform](#), is a complete procurement platform which is native to cloud, touch and mobile technologies. Offered as Software-as-a-Service (SaaS), SMART by GEP leverages cloud economics to deliver a solution that easily handles the heaviest processing requirements of GEP's Fortune 500 and Global 2000 clients, while eliminating burdensome infrastructure and support costs.

SMART by GEP is easy to set up, deploy and use, with no extensive training required. All GEP products are platform-agnostic (they work with SAP, Oracle or any other major ERP or F&A system). And with superb support and service, GEP is an industry leader in customer satisfaction.

SMART by GEP provides complete source-to-pay functionality in one user-friendly, cloud-native platform, inclusive of spend analysis, sourcing, contract management, supplier management, procure-to-pay, savings project management and savings tracking, invoicing and other related functionalities. The award-winning, SaaS-based S2P platform is native to touch and mobile technologies, enabling users to work anywhere, any time on any device.
