

# PROCUREMENT MANAGED SERVICES

GEP's end-to-end procurement services quickly drive and deliver bankable business results

GEP provides procurement outsourcing solutions to more than 450 Fortune 500 and Global 2000 enterprises worldwide, helping procurement leaders and enterprise procurement teams across more than 30 industries achieve next-level results every day.

So it may come as little surprise that GEP is repeatedly singled-out by procurement leaders as one of the leading providers of procurement outsourcing services in the industry.

Why? To begin with, GEP's procurement outsourcing solutions encompass the entire procurement value chain — from source to pay. At the same time, each GEP program — from end-to-end outsourcing to focused point solutions to productivity-boosting support services — is uniquely configured to each client's specific requirements and objectives.

## IMPROVE YOUR PROCUREMENT TEAM'S REACH & IMPACT

- Expand Category & Commodity Expertise

- Increased Spend Visibility & Control
- Improved Compliance & Transparency
- Fresh, Innovative Thinking & Proactive Problem-Solving
- Seamless Integration & Outstanding Client Service
- World-Class Procurement Talent on Demand
- Comprehensive Skill Sets, Diverse Competencies
- State-of-the-Art Global Infrastructure, Tools & Technology
- Enhanced Business Agility
- Reduced Operations Costs
- Continuous Improvement

## Working Together — One Dedicated Team

At GEP, one of the industry's deepest pools of sourcing and procurement talent — including hundreds of category, commodity and process experts — is supported by state-of-the-art infrastructure and a network of local, regional and global offices and operations centers that span key markets in Europe, Asia and the Americas. (Indeed, Everest Group ranks GEP in the top four providers of PO services in Latin America.)

While our delivery teams are proficient in virtually all leading sourcing, procurement, finance & accounting, and ERP systems, our internal processes are supported by GEP SMART — one of the most innovative and effective productivity tools in the industry.

Fact is, flexibility, fresh thinking and a passion for results distinguish every GEP outsourcing program. Maybe that's why the industry's most respected analysts — including Gartner, Everest, Spend Matters, Ardent Partners, HFS, IDC and ISG — consistently place GEP in the very top ranks of global PO providers.

## GEP GETS RESULTS

**Client:** A global CPG giant

**Challenge:** To drive a step-change in savings results, while transforming the procurement organization to align to an enhanced strategic role

**Approach:** GEP designed and implemented a program that not only drove increased savings, but also helped enhance role and overall value of the procurement organization to the enterprise. GEP provided program management and execution of all sourcing and procurement operations, leveraging GEP's deep subject matter and process expertise, blended onshore/offshore model, and GEP SMART, our innovative source-to-pay platform.

**Impact:**

- Delivered higher-than-targeted savings every year
- Achieved more than 95 percentage global spend visibility
- Improved compliance to more than 95 percentage
- Enabled a truly strategic role for the corporate procurement team

# PROCUREMENT MANAGED SERVICES

GEP's end-to-end procurement services quickly drive and deliver bankable business results

## Analyst POV

*“GEP has consistently been a leading service provider in the move to procurement as-a-service. With a strong vision for the future of procurement, paired with deep procurement knowledge and capabilities, and a comprehensive procurement software platform, GEP delivers transformational procurement value to clients across the world.” – HfS Research*

## Talent

Our people make all the difference — that's what our clients tell us, time and again. GEP attracts some of the most talented procurement people in the industry. They are accomplished pros from leading global enterprises, top academic institutions and blue-chip consultancies — with the passion, energy and commitment to deliver extraordinary outcome.

Together, we manage more than \$200 billion in spend with over 10 million transactions every year. And it's this hands-on experience that helps us achieve results that delight our clients.

## Category Expertise

GEP has hundreds of category specialists across key areas such as MRO, IT & telecom, logistics, energy, CAPEX and more. Each of them with years of procurement experience and practical knowledge across all categories of products and services.

Backed by dedicated supply market intelligence and analytics teams, a vast supplier and pricing database, and decades of hands-on industry experience, our category specialists offer unmatched expertise to drive next-level savings and results.

## Global Delivery

GEP has 21 offices and operations centers in major markets across Europe, Asia and the Americas, and our footprint continues to expand every year.

But what truly distinguishes GEP is the intense level of integration among on-site, off-site and global resources on our delivery teams.

Our innovative GRID™ (Global Regional Integrated Delivery) model enables GEP to easily tap expert resources worldwide and efficiently execute programs globally.

GRID™ also helps us incorporate fresh local and regional insight into our global procurement operations, giving our solutions teams a leg up in intensely competitive markets.

## Technology

Our services teams are proficient on all major sourcing, procurement, supply chain management, financial & accounting, and ERP systems. And our outsourcing solutions are platform-agnostic.

That means we can leverage your existing technology investments from day one.

At the same time, our internal delivery teams are supported by two of the most powerful and effective platforms in the industry — GEP SMART, the AI-powered, cloud-native procurement software, and GEP NEXXE, the next-gen end-to-end supply chain management software.

Fact is, GEP is recognized by Gartner, Forrester, IDC and other technology analysts as a leading technology provider, and our reputation for fresh thinking and innovation is unique among leading procurement services providers.

GEP helps global enterprises operate more efficiently and effectively, gain competitive advantage, boost profitability, and maximize business and shareholder value.

Fresh thinking, innovative products, unrivaled domain and subject expertise, and smart, passionate people — this is how GEP creates and delivers unified supply chain solutions of unprecedented scale, power and effectiveness.

Named a Leader in Gartner Magic Quadrants, Winner for Best Procurement Software and Best P2P Provider at the World Procurement Awards, Best Procurement Consultancy at CIPS Supply Management Awards, and Best Provider at the EPIC Procurement Excellence Awards, GEP is frequently honored as an innovator and leader in source-to-pay direct and indirect procurement software by Gartner, Forrester, IDC, Procurement Leaders, Spend Matters and CPO Rising.

GEP is also ranked leader in managed procurement services (procurement outsourcing) by Everest Group, NelsonHall, IDC, ISG, HfS and IAOP. In addition, the primary research firm in the management consulting sector, ALM Intelligence, ranks GEP leader in procurement strategy and supply chain consulting.

With 21 offices and operations centers in Europe, Asia and the Americas, Clark, New Jersey-based GEP helps enterprises worldwide realize their strategic, operational and financial objectives. To learn more about our comprehensive range of software and services, please visit [www.gep.com](http://www.gep.com).

GEP SMART is an AI-powered, cloud-native software for direct and indirect procurement that offers comprehensive source-to-pay functionality in one user-friendly platform, inclusive of spend analysis, sourcing, contract management, supplier management, procure-to-pay, savings project management and savings tracking, invoicing and other related functionalities.

GEP NEXXE is a unified and comprehensive supply chain platform that provides end-to-end planning, visibility, execution and collaboration capabilities for today's complex, global supply chains.

Built on a foundation of big data, artificial intelligence and machine learning, GEP NEXXE is next-generation software that helps enterprises make supply chain a competitive advantage.
