

GEP'S CLOUD-NATIVE, SOURCE-TO-PAY PROCUREMENT SOFTWARE, SMART BY GEP[®], ACHIEVES TOP HONORS ON EPROCUREMENT (P2P) SOLUTIONMAP[™] FROM SPEND MATTERS

- **SMART by GEP ranks in top-right quadrant (value leader) across four key user profiles – Mega, Deep, DIY & ERP Wrapper – in new analysis of leading procure-to-pay (P2P) software solutions from Spend Matters**

Clark, NJ – April 11, 2017 – GEP, a leading provider of procurement software and procurement services to Fortune 500 and Global 2000 enterprises worldwide, announced today that the [Spend Matters 2017 SolutionMap[™]](#) for eProcurement software gives top scores to SMART by GEP[®], the industry's leading cloud-native, source-to-pay procurement software platform, for critical functions in procure-to-pay (P2P) operations.

GEP's success with large, enterprise-level customers is reflected in SMART by GEP's leadership rankings on the SolutionMap for four key enterprise-level "personae" — Mega (mature, outcome-focused), Deep (highly sophisticated organizations), DIY (those with unique process requirements) and ERP Wrapper (organizations with strong ERP infrastructure). You can access the full report [here](#).

The SMART by GEP source-to-pay [procurement software](#) platform is native to cloud, touch and mobile technologies. Offered as a SaaS/PaaS solution, SMART by GEP leverages cloud economics to deliver a solution that easily handles the heaviest throughput and processing requirements of GEP's Fortune 500 and Global 2000 clients, while eliminating burdensome infrastructure and support costs.

SMART by GEP is easy to set up, deploy and use, with no extensive training required. All GEP products are platform-agnostic (they work with SAP, Oracle, and all other major ERP and F&A systems). And with superb support and service, GEP is an industry leader in customer satisfaction.

SMART by GEP provides complete source-to-pay functionality, unified in one user-friendly, cloud-native platform, inclusive of spend analysis, sourcing, contract management, supplier management, procure-to-pay, savings project management and savings tracking, invoicing and other related functionalities. The award-winning, SaaS-based S2P platform is native to touch and mobile technologies, enabling users to work anywhere, any time, on any device.
